

Misinformation about COVID-19 Vaccinations

"Some community members have reported to the County that they received text messages wrongly informing them of "extra" vaccine supply availability and providing them with registration links for appointments at vaccination sites in Santa Clara County." - Santa Clara County Public Health Department

PLEASE LOOK OUT FOR THESE SCAMS:

- If they ask you to pay so that you could get early access to the COVID-19 vaccine.
- If they ask you to pay out of your own pocket to get the vaccine.
- If they ask you to give them your SSN (Social Security Number), credit card number, or bank account information when "signing up" to get the vaccine.

Then, contact your healthcare provider or go to
